

***UTAH* (NPS)**

Off Ford Island, Pearl Harbor, Oahu, Honolulu

Built in 1909, the first and only battleship to bear the name, the USS *Utah* was at its Pearl Harbor berth at the time of the Japanese air attack. It was hit by two torpedoes and capsized. Its rusting hulk, listing to port, now lies submerged in silt and water and serves as a memorial and tomb for the crew members who died in the attack.
